# BOAT SALES

LAKELAND LEISURE ESTATES

## Description

Next Chapter is a beautifully crafted 50ft Cruiser Stern Narrowboat, blending thoughtful design with practical features to create the ultimate waterway living experience. Whether you're embarking on an extended voyage or enjoying weekend escapes, this 2014 model offers the ideal mix of comfort, space, and functionality. Perfectly laid out for easy living, it provides an inviting and efficient space for up to four people to relax, sleep, and explore.

At the heart of Next Chapter lies a robust Barrus Shire 4-cylinder engine, offering reliable power for your travels along the waterways. Equipped with a Victron 1200va Multiplus Compact Inverter and solar panels, this boat ensures sustainable energy use, enabling you to enjoy off-grid living without sacrificing modern comforts.

The galley is designed for both practicality and style, featuring sleek surfaces and high-quality appliances. It boasts a brand-new 12v fridge, a washer/dryer combination, a microwave, a gas cooker, and a sink – everything you need to prepare delicious meals on board. The spacious cupboards ensure plenty of storage for your kitchen essentials, and the light-filled space makes cooking and dining a joy.

The saloon offers a welcoming space with a sofa bed that easily transforms into a full-sized double, making it perfect for extra guests or those relaxing evenings on board. The multifuel stove creates a cosy atmosphere, ideal for cool nights, while large windows allow for beautiful views of the water, making it a delightful place to unwind.

The master bedroom is an oasis of tranquillity. The hydraulic Ottoman bed provides a 4ft fitted double mattress with abundant storage underneath – a clever use of space for all your belongings. A generous wardrobe and shelving units ensure that your personal items are neatly organized, while a skylight above the bed brings in natural light, enhancing the serene ambience of the room.

The spacious walk-through bathroom is thoughtfully designed, featuring a separate WC room equipped with a compost toilet by Simploo for eco-friendly waste disposal. The bathroom itself includes a wash basin with a stylish cabinet, and a generous shower area, making it an ideal space to refresh after a day on the water.

Next Chapter has been expertly built by RLL Boats and thoughtfully fitted out by the owner, ensuring the highest standards of craftsmanship. The reverse layout creates a flow that maximises space and functionality, with the galley and saloon at the stern, followed by the bathroom and the master bedroom at the bow.

This narrowboat is a perfect choice for those looking for a vessel that combines elegance, comfort, and practicality. Whether you're cruising the open waters or spending a quiet evening onboard, Next Chapter is ready to provide a comfortable and stylish home on the waterways.
